

Lucas McCain Newman

88 Old Stonemill Rd. Marietta, GA 30067 | 770-235-9213 | lucas.newman@icloud.com | github.com/lukenewman

OBJECTIVE

A software engineering internship in iOS app and/or SDK development.

EDUCATION

Georgia Institute of Technology, Atlanta, GA

June 2013 - May 2017

Candidate for B.S. in Computer Science, Entrepreneurship Certificate

GPA: 3.47

Dean's List, Zell Miller Scholarship Recipient

WORK EXPERIENCE

Agency Spotter - iOS Developer Internship

Aug 2015 - Dec 2015

Creating an iOS companion app for Agency Spotter's services that helps marketers create a shortlist of the best design firm candidates for their next projects.

Plutonium Apps - iOS Developer

May 2015 - Present

Independent contracting work for an app development company comprised of Georgia Tech students and alumni. UI and backend development on four apps so far.

Manhattan Associates - R&D

May 2014 - Aug. 2014

Full-time internship at one of the world's leading supply chain software and consulting companies. Worked with the Architecture team in the Research & Development Department. Assisted in proprietary mobile application development tools.

PROJECTS

GT ProTecht

Nov 2015 - Present

GT ProTecht is a mobile app that helps keep the Georgia Tech community safe. The app takes a proactive approach to crime prevention by analyzing crime data, generating insights, and sending notifications that help students stay safe. Currently in development.

PlayToPay

September 2015

A modern take on credit card roulette, this iOS app lets a group of friends, family, or coworkers decide who should pick up the check or tab. I was the head iOS developer working on the full stack. Created during HackGT 2015. Find it on the [App Store](#) and also on my [Github](#).

Spots

August - October 2015

Developed with Plutonium Apps for a client, Spots is a social traveling app that lets college students rent out couches or extra bedrooms for other traveling students. More information [here](#).

SKILLS

Objective-C, Swift, Xcode, Java, C, Node.js, Express, Git

EXTRACURRICULAR ACTIVITIES

Georgia Tech iOS Club - Co-Founder/Instructor

Aug. 2015 - Present

Founding member of the GT iOS Club. Presenting lectures on Swift and Storyboard development.

Fraternity of Phi Gamma Delta - IT Chair

Jan. 2014 - Jan. 2015
