---

## EDUCATION

### Georgia Institute of Technology, Atlanta, GA

June 2013 - May 2017

Candidate for B.S. in Computer Science, Entrepreneurship Certificate

GPA: 3.5 — Dean's List, Zell Miller Scholarship Recipient

## WORK EXPERIENCE

### Big Nerd Ranch – iOS Intern / Developer

May 2016 - Present

Working alongside a highly functional agile team of developers and designers taking on deliverables, goals, and key results while continuously learning to hone my craft. My internship this summer led to a part-time offer for the Fall semester working further on client projects and book updates.

### Agency Spotter – iOS Developer Internship

Aug 2015 - Jan 2016

Design and development of an iOS companion app for Agency Spotter's services that helps marketers create and edit shortlists of the best design firm candidates for their next projects.

### Plutonium Apps – iOS Developer

May 2015 - Present

Independent contracting work for an app development company founded by Georgia Tech students and alumni. Full-stack development on four iOS apps so far.

### Manhattan Associates – R&D Internship

May 2014 - Aug. 2014

Full-time internship at one of the world's leading supply chain software and consulting companies. Worked with the Architecture team in the Research & Development Department. Assisted in proprietary mobile application development tools.

## PROJECTS

### Agency Spotter

Aug 2015 - Jan 2016

Agency Spotter for iOS is a mobile companion to [Agency Spotter's](#) main web services. It allows marketers to create shortlists of creative agencies and design firms they are interested in. Available on the App Store. Find out more at its [website](#).

### PlayToPay

September 2015

A modern take on credit card roulette, this iOS app lets a group of friends, family, or coworkers decide who should pick up the check or tab. I was the head iOS developer working on the full stack. Created during HackGT 2015. Find it on the [App Store](#) and the source on my [Github](#).

### More

A comprehensive portfolio of my projects can be found on my [website](#).

## SKILLS

Objective-C, Swift, Python, Java, C, Xcode, Git, Pivotal Tracker

## EXTRACURRICULAR ACTIVITIES

### Georgia Tech iOS Club - Executive & Lecturer

Aug. 2015 - Present

Founding member of the GT iOS Club. Presenting lectures on various iOS topics in Swift, and managing liaison between corporate sponsors and the club.
