Lucas McCain Newman

88 Old Stonemill Rd. Marietta, GA 30067 | 770-235-9213 | lucas.newman@icloud.com | github.com/lukenewman

OBJECTIVE

A software engineering internship in iOS app and/or SDK development.

EDUCATION

Georgia Institute of Technology, Atlanta, GA   June 2013 - May 2017
Candidate for B.S. in Computer Science, Entrepreneurship Certificate
GPA: 3.39
Dean's List, Zell Miller Scholarship Recipient

WORK EXPERIENCE

Agency Spotter - iOS Developer Internship   Aug 2015 - Present

Design and development of an iOS companion app for Agency Spotter's services that helps marketers create and edit shortlists of the best design firm candidates for their next projects.

Plutonium Apps - iOS Developer   May 2015 - Present

Independent contracting work for an app development company comprised of Georgia Tech students and alumni. Full-stack development on four iOS apps so far.

Manhattan Associates - R&D   May 2014 - Aug. 2014

Full-time internship at one of the world's leading supply chain software and consulting companies. Worked with the Architecture team in the Research & Development Department. Assisted in proprietary mobile application development tools.

PROJECTS

Agency Spotter   Aug 2015 - Present

Agency Spotter for iOS is a mobile companion to Agency Spotter's main web services. It allows marketers to create shortlists of creative agencies and design firms the are interested in working with. Currently Waiting For Review in the App Store.

PlayToPay   September 2015

A modern take on credit card roulette, this iOS app lets a group of friends, family, or coworkers decide who should pick up the check or tab. I was the head iOS developer working on the full stack. Created during HackGT 2015. Find it on the App Store and also on my Github.

Spots   August - October 2015

Developed with Plutonium Apps for a client, Spots is a social traveling app that lets college students rent out couches or extra bedrooms for other traveling students. More information here.

SKILLS

Objective-C, Swift, Xcode, Java, C, Node.js, Express, Git

EXTRACURRICULAR ACTIVITIES

Georgia Tech iOS Club - Co-Founder/Instructor   Aug. 2015 - Present

Founding member of the GT iOS Club. Presenting lectures on Swift and Storyboard development.

Fraternity of Phi Gamma Delta - IT Chair   Jan. 2014 - Jan. 2015
