Lucas McCain Newman

770-235-9213 | Atlanta, GA | lucas.newman@icloud.com | lukenewman.github.io

EDUCATION

Georgia Institute of Technology, Atlanta, GA   June 2013 - May 2017
Candidate for B.S. in Computer Science, Entrepreneurship Certificate
GPA: 3.5
Dean's List, Zell Miller Scholarship Recipient

WORK EXPERIENCE

Big Nerd Ranch – iOS Developer   May 2016 - Present
Worked alongside a highly functional agile team of developers and designers taking on deliverables, goals, and key results while continuously learning to hone my craft. My internship this summer ended with a part-time developer offer for the Fall semester working on book updates and client projects.

Agency Spotter – iOS Developer Internship   Aug 2015 - Present
Design and development of an iOS companion app for Agency Spotter's services that helps marketers create and edit shortlists of the best design firm candidates for their next projects.

Plutonium Apps – iOS Developer   May 2015 - Present
Independent contracting work for an app development company comprised of Georgia Tech students and alumni. Full-stack development on four iOS apps so far.

Manhattan Associates – R&D   May 2014 - Aug. 2014
Full-time internship at one of the world's leading supply chain software and consulting companies. Worked with the Architecture team in the Research & Development Department. Assisted in proprietary mobile application development tools.

PROJECTS

Agency Spotter   Aug 2015 - Present
Agency Spotter for iOS is a mobile companion to Agency Spotter's main web services. It allows marketers to create shortlists of creative agencies and design firms the are interested in working with. Available on the App Store. Find out more at its website.

PlayToPay   September 2015
A modern take on credit card roulette, this iOS app lets a group of friends, family, or coworkers decide who should pick up the check or tab. I was the head iOS developer working on the full stack. Created during HackGT 2015. Find it on the App Store and also the source on my Github.

A comprehensive portfolio of my projects can be found on my website.

SKILLS

Objective-C, Swift, Python, Java, C, Xcode, Git, Pivotal Tracker

EXTRACURRICULAR ACTIVITIES

Georgia Tech iOS Club - Executive & Lecturer   Aug. 2015 - Present
Founding member of the GT iOS Club. Presenting lectures on various iOS topics in Swift.
